

INSTITUTIONAL DEVELOPMENT PLAN

- **Curriculum Development:** Maintaining the curricular quality and its relevance by developing and upgrading the autonomous setup.
- **Teaching, Learning and Assessment:** Maintaining educational quality by appointing faculty members on schedule. Following the academic calendar.
- **Improving Teaching-Learning with ICT:** Making use of LCD projectors, advertising Learning Management Systems (LMS), and e-learning materials.
- **Promoting Research:** Encouraging academic members to conduct research.
- **Workshops/Seminars:** Planning seminars on innovative industry-academia practices and Intellectual Property Rights (IPR).
- **Consultancy Services:** Making revenue by providing free services to particular community groups, such as school children and tribe members.
- **Memorandums of Understanding (MoUs):** Expanding partnerships with organizations and businesses for project work, internships, on-the-job training and research facility sharing.
- **Facilities and Infrastructure:** Infrastructure augmentation includes maintaining and updating existing structures, as well as setting aside funds for and routinely meeting the needs for labs and classrooms.
- **Strategic Planning:** Establishing a Finance Committee and other committees to review the goals and financial plans for the funds received and guarantee that institutional entities operate efficiently, as evidenced by administration.
- **Student welfare and Outreach:** Admissions will increase by providing high-quality education while complying with the Single Window System and legal standards. Additionally, student welfare programs, both institutional and governmental, will be utilized for the benefit of students through Scholarships & Puthumai Pen Scheme.
- **Holistic Development:** Prioritizing extracurricular and co-curricular activities while concentrating on student's entire holistic development.
